People supported on their
financial, physical and/or
mental well-being

Facts & figures 2022

We aim to support the financial, physical and/or mental well-being of 1 million people by 2025. In 2022, we supported more than 229,000 people of which:

7,434

People grew their skills and knowledge for making informed decisions about their finances

22,595

People received support with their basic financial needs

31,273

People were provided with tools, training and skills to increase their readiness for school, career and life

2,568

People trained on employability and job readiness

164,546

People received access to quality health services, if possible in the privacy of their home

863

People received support in decreasing their feeling of loneliness
