1.1 Activities and results

General

NN Covered Bond Company B.V. ("the Company" or "CBC") was incorporated on May 25, 2020.

The Company guarantees, under the Trust Deed, the payment of interest and principal payable under the Covered Bonds ("the Bonds") issued by Nationale-Nederlanden Bank N.V. ("NN Bank" or "the Issuer"), which is located at Prinses Beatrixlaan 35-37, 2595 AK, 's Gravenhage. As consideration for the Company to meet its obligation under the issued guarantee, NN Bank will legally transfer eligible assets to the Company. NN Bank transferred eligible mortgage loans ("Mortgage Loans") to the Company through a silent assignment ('stille cessie'). Prior the occurrence of an Assignment Notification Event, or if the asset cover test has been breached or if a Notice to pay / CBC Acceleration Notice has been served, NN Bank is entitled to all proceeds in relation to the transferred eligible assets. If one or more of the previously mentioned events occur or a notice has been issued, the Company will be entitled to all proceeds in relation to the transferred assets, in order to fulfil its obligation under the issued guarantee to pay interest and principal on the Bonds.

The objectives of the Company are, in the framework of a soft bullet covered bond programme of NN Bank, (a) to issue guarantees in favour of holder of covered bonds issues by Nationale Nederlanden Bank N.V. (b) to acquire, purchase, conduct the management of, dispose of and to encumber assets including receivables under or in connection with loans granted by a third party or by third parties and to exercise any rights connected to such assets, (c) to acquire monies to finance the acquisition of the assets including the receivables mentioned under (a), by way of issuing notes or other securities or by way of entering into loan agreements, (d) to on-lend and invest any funds held by the CBC, (e) to hedge interest rate and other financial risks, amongst others by entering into derivatives agreements, such as swaps, (f) in connection with the foregoing: (i) to borrow funds and (ii) to grant security rights or to release security rights to third parties, and (g) to do anything which, in the widest sense of the words, is connected with or may be conducive to the attainment of these objects.

Since the issuance of the first series of Bonds neither an Assignment Notification Event, nor a breach of the asset cover test has occurred nor has a Notice to pay or a CBC Acceleration Notice been served. Therefore, NN Bank has the economic ownership of the Mortgage Loans. The Company is consolidated by NN Bank.

NN Bank may issue, under the Soft Bullet Covered Bond Programme, various series of Covered Bonds with a total nominal amount of EUR 10,000,000,000 (hereafter the "Covered Bond Programme"). On July 8, 2020, NN Bank issued a first series of Bonds in a total nominal amount of EUR 500 million. At year-end 2022, in total five soft bullet series were directly issued under the Covered Bond Programme with a total nominal amount of EUR 2,250,000,000. Please note that the transaction, EUR 500 million issued in May 2022, was in green bond format. This means that the issuance is aligned with NN Bank's Green Bond Framework, which was established in June 2021. All Bonds in these series were still outstanding as per the year-end. Standard & Poors have rated the Bonds issued as AAA/Stable outlook.

On 15 March 2022, the Issuer gave a notice of a meeting of covered bondholders in respect of all covered bonds issued under its EUR 5,000,000,000 conditional pass-through covered bond programme (the "Conditional Pass-Through Covered Bond Programme") for the purpose of soliciting a consent to the transfer of such covered bonds from the Conditional Pass-Through Covered Bond Programme to this Programme by replacing the guarantor with the CBC and to modify and/or replace the final terms and the conditions of all series outstanding under the Conditional Pass-Through Covered Bond Programme with the Final Terms and Terms and Conditions of this Programme to provide that, instead of being "conditional pass-through" covered bonds, the covered bonds will instead become "soft bullet" Covered Bonds as proposed by the Issuer for approval by a programme resolution.

On 8 April 2022, a meeting of covered bondholders was held at which meeting the covered bondholders were invited to consider and, if thought fit, vote in favour of the programme resolution. The programme resolution was passed at the meeting and the proposed amendments were implemented on 22 April 2022 and pursuant thereto, all covered bonds outstanding and assets under the Conditional Pass-Through Covered Bond Programme were transferred to this Programme and are now outstanding under and form part of this Programme. On 18 May 2022, the Conditional Pass-Through Covered Bond Programme was terminated.

As per the year-end, the net outstanding nominal amount of Collateral (mortgages -/- saving deposits) was EUR 5,809.8 million (previous period: EUR 1,900.2 million).

NN Covered Bond Company B.V.

Annual Report 2022

The Trust Deed entered into by the Company, NN Bank and Stichting Security Trustee NN Covered Bond Company states that all cost and expenses of the Company and all cash flows from swaps will be received and paid on behalf of the Company by NN Bank for its own account. As a result, all amounts remaining in the Company will flow back periodically to NN Bank. Cash transactions to the Company are limited to bank interest received and bank interest charged through to NN Bank and the Company will not have the right to any of the proceeds.

The terms and conditions are more fully described in the Prospectus dated July 6, 2022 ("the Prospectus") as lastly amended on September 27, 2022 and the terms used in this Annual report generally match those used in the Prospectus. However, the Prospectus does not form a part of this Annual report.

Based on the set-up and structure of the company no profit or losses are foreseen, as all expenses are reimbursed to the Issuer and proceeds are payable by the Issuer.

RISK MANAGEMENT

The Company has, under the Trust Deed, guaranteed the payment of interest and principal payable under the Bonds issued by NN Bank. As a consequence, the Company may in case NN Bank cannot fulfil its financial obligations towards the Company or the covered bond holders, amongst others, run interest rate and credit risk on both the Bonds and the mortgage portfolio. In order to limit these potential risks the Company will mitigate these risks through various instruments.

The risk appetite of the Company is low and matches the risk-profile of the Company. Various measures have been taken to mitigate the credit, concentration, interest rate and liquidity risks for the Company. These measures are described below:

Credit and concentration risk

The Company has no exposure to credit risk, which is the risk that the borrowers will be unable to pay amounts in full when due, unless the guarantee is invoked. When the guarantee is invoked all risks associated with the Mortgage Loans are transferred to the Company. Until such time all risks and rewards associated with the assets are retained by NN Bank and the transferred Mortgage Loans are not recognised on the balance sheet of the Company. However, given the minimum required over-collateralisation of at least 5% a buffer is available to cover losses arising.

Interest rate risk

In order to limit the potential interest rate risk the Company may, if deemed necessary, enter into swap agreements in order to mitigate that risk. In relation to the Bonds issued and the portfolio transferred to the Company no swap agreement has been entered into by the Company. This, given the fact that the fixed interest rate on the Bonds between 0.01% and 1.875% is less than the average interest rate of all transferred receivables of 2.5%. At December 31, 2022, the Company does not have any swap agreements.

Furthermore, the notional amount outstanding of all transferred eligible Mortgage Loans and denominated cash should at least (i) be 100% of the statutory notional amount outstanding of all Bonds and (ii) 105% of the statutory CRR nominal (i.e. including a 80% LTV cut-off) of all Bonds. At the balance sheet date the notional amount outstanding of the transferred eligible Mortgage Loans and denominated cash was 119.6% (previous period: 108.3%).

Liquidity risk

In order to mitigate the liquidity risk, a temporary shortfall in cash, a reserve account is established. Cash is deposited by NN Bank in a separate bank account held with BNG Bank N.V. ("BNG").

Limited Recourse

Although credit, concentration, interest rate and liquidity risks are recognized, the exposure for the Company is limited. The Bonds are issued with limited recourse. If the event of a default occurs and the security is enforced, the proceeds may not be sufficient to meet the claims of all the Secured Creditors (the Covered Bond holders, directors, administrator, back-up administrator, servicers, custodian, paying agent, calculation agent, registrar, a swap counterparty (if any), asset monitor, CBC account bank, participants, transferor and such other party designated by the security trustee to become a Secured Creditor). If, following enforcement of the security, the Secured Creditors have not received the full amount due to them, the Secured Creditors will no longer have a claim against the Company. The Secured Creditors may still have an unsecured claim against the Issuer for the shortfall.

The reserve amount relates to the obligatory cash deposit made by NN Bank. The required amount is based on the scheduled interest due on the issued Bonds on the next following interest payment date. The reserve fund is maintained in order to guarantee an uninterrupted payment of the interest amounts due on the Bonds. The Company will refund the deposited amount to NN Bank when the issued Bonds have been repaid in full. The maturity dates of the issued series lie between February 27, 2024 and March 4, 2041. The Company has of December 31, 2022 no exposure to foreign currency risk as all assets and liabilities are denominated in EUR.

In our opinion, the financial statements give a true and fair view of the assets, liabilities, financial position, statement of income and statement of cash flows of the Company and the director's report includes a true and fair view of the development and performance of the business and the position of the Company, together with a description of the principal risks that the Company faces.

1.2 Future developments

The Company was incorporated specifically for its role in a structured finance transaction and is governed by the terms and conditions of the Prospectus and other Transaction Documents. These are drawn up, inter alia, to foresee all possible future economic conditions, including those that may well be caused by the Ukraine/Russia conflict. If the Originator cannot fulfil its financial obligations towards the Company or the Covered Bond holders, the issued guarantee will be invoked. The Company will then assume the liabilities of the issued Covered Bonds and the economic risk of the portfolio of Mortgage Loans will be transferred to the Company. In case the proceeds of the interest and principal on the transferred assets are not sufficient to meet the claims of all the Secured Creditors, such losses will not be borne by the Company itself but rather by the Company's Secured Creditors and only ultimately the Company's shareholder. The Company intends to act within the terms and conditions set out for it by the Transaction Documents, and to otherwise comply with all its other obligations.

The Company intends to continue to act within the terms and conditions set out for it by the Transaction Documents, and to otherwise comply with all its other obligations. The Company has no employees and is dependent on third-party service providers. However, the level or quality of the service provided has remained unaffected.

In conclusion, the Company expects to remain a going concern. The Director believes that the Company's risks are adequately mitigated, as described in the Annual Report and the Prospectus.

The risk appetite of the Company is low and matches the risk-profile of the Company. Various measures have been taken to mitigate the credit, concentration, interest rate and liquidity risks for the Company. These measures are described below:

In order to limit the potential interest rate risk the Company may, if deemed necessary, enter into swap agreements in order to mitigate that risk. In relation to the Bonds issued and the portfolio transferred to the Company no swap agreement has been entered into by the Company. Revenue recognition

Income and expenses are recognised in the statement of income on an accruals basis. Losses are accounted for in the year in which they are identified.
