# Remittances largely driven by own funds generation

Segment	Own Funds generation	Capital requirements	Capital levels	Drivers remittances	Remittances vs Net operating result
Netherlands Life	+	+	+	Excess return, UFR unwind, release of risk margin, expense reduction Limited new business and large closed blocks releasing SCR Surplus capital above commercial level	>
Netherlands Non-life	+			Profitable new business and expense reduction	=
Insurance Europe	+			Excess return and profitable new business Capital light new business and some SCR release from closed blocks	=
Japan Life <sup>1</sup>	+	-		Contribution on JGAAP basis meaning high new business strain	<
Asset Management	+			IFRS earnings	=
Japan Closed Block VA <sup>2</sup>		+	+	Estimated dividend of EUR 50m plus or minus hedge results in 2019	>
Banking <sup>3</sup>				Contribution to Own Funds driven by remittances	
Other – holding	-			Holding expenses, debt costs and restructuring charges	

**Over time, generate free cash available to shareholders in a range around the net operating result<sup>4</sup>**

1. Remittances equal 5/6th of JGAAP retained earnings with adjustments
2. Expected capital release from NN Re Netherlands
3. As NN Group is designated as a Financial Conglomerate, regulatory Solvency II operating capital generation does not include banking
4. Net operating result, adjusted to reflect the deduction of the accrued coupon on undated subordinated notes classified in equity; assuming normal markets, no material regulatory changes and no material special items other than restructuring charges

# Committed to our dividend policy

- Priority is a sustainable ordinary dividend per share
- NN Group intends to pay an ordinary dividend in line with its medium term financial performance and envisages an ordinary dividend pay-out ratio of 40-50% of the net operating result
- Double-digit increase in full-year dividend per share for 2018 versus 2017, reflecting first full year of incremental free cash flows from the Delta Lloyd transaction
- Excess capital returned to shareholders unless it can be used for value creating opportunities
- Interim dividend at 40% of prior year's full-year dividend

# Our capital allocation decisions focus on creating value

## Invest to realise our ambitions and strategy

- Innovation
- Agility
- Value discipline

Innovate to transform the business model and deliver excellent customer experience

## Invest to strengthen current position of our business units

- Hurdle rates
- Market and business position
- Readiness

Focus on driving efficiency, writing profitable new business and disciplined capital allocation

## Invest in value-creating opportunities

- Best owner concept
- Risk versus return
- Readiness and deliverability

Deploy capital based on clear principles around return, risk and understanding of the opportunity; otherwise return capital to shareholders in most efficient form

# International footprint

■ Insurance and Asset Management ■ Insurance ■ Asset Management<sup>1</sup>

- **Netherlands:** No need for large scale M&A given leading market position; integrate and drive up Return on Capital
- **Insurance Europe:** Strongly positioned in most markets; open to bolt-on acquisitions and portfolio optimisation
- **Japan:** Strong niche position, organically built and performing well
- **Asset Management:** Diversified active asset manager with focused investment capabilities

# NN Group's investment proposition

## Strong business positions and balance sheet

- Leading market player
- Competitive positions strengthened
- Solvency II ratio of 213%<sup>1</sup>

## Transformation in the Netherlands

- Continued focus on cost reductions
- Scale player with growth in pensions
- Large closed books releasing capital
- Continued risk return optimisation of investment portfolio
- Actions to restore non-life profitability

## Profitable growth in other segments

- VNB growth in Insurance Europe and Japan Life
- Continued expense discipline resulting in operating leverage
- Focused asset manager (AuM EUR 260bn<sup>1</sup>)

## Focus on generating capital and improving earnings

# Solvency II movement 1Q19

- Solvency II ratio of 213% reflects operating capital generation offset by market variance and the EUR 500m share buyback
- As of this quarter, operating capital generation includes the accruals of qualifying debt
- Market variance mainly driven by movements in credit spreads and interest rates, offset by positive equity revaluations
- Other includes the impact of the UFR reduction from 4.05% to 3.90% and the update of the reference portfolio

# Solvency capital

## Basic Own Funds vs Eligible Own Funds

(1Q19, EURbn)

- Non-available Own Funds is our view of capital that cannot be distributed within 9 months
- Non-eligible Own Funds is DTA above the Tier 3 cap of 15% of SCR

## Tiering Solvency II Eligible Own Funds

(EURbn)

- NN Group Own Funds excludes EUR 1.0bn of regulatory capital held in the bank
